- 1.) Older guitarist looking for mature musicians with a professional attitude and a professional level of playing ability to participate in Jam Sessions, (or maybe a Jam Band or an Originals Band) in the Southern New Hampshire / Northeastern Massachusetts border area.
- 2.) Playing style is in the Aggressive Progressive-Heavy Rock-Jazz-Fusion genre.
- 3.) Influenced by Frank Zappa, Captain Beefheart, BLS (Bozzio. Levin. Stevens), Pink Floyd, King Crimson, Jeff Beck, Rush, Deep Purple, and Jean Luc-Ponty to name a few.
- 4.) I can play bass, though I'm somewhat reluctant to do so, as my forte is guitar.
- 5.) I live a tobacco, alcohol, and drug free lifestyle.
- 6.) Unfortunately, I do not have a place to have jam sessions.
- 7.) I prefer to be facing forward musically, so please, no Dinosaur Rock / Classic Rock covers, nor death, doom, devil, blood, kill & gloom topical style of metal. There's other topical styles of metal to play such as Sci-Fi/Fantasy, which would be of interest to me.
- 8.) Also, let me say this about that... a jam session is like soup, how it comes out depends upon who's playing & what they're playing. No two jams are ever the same. That having been said, here's where to find a 2 minute segment of a longer freestyle jam with my friend Steve P. on bass, & Paul H. on drums. A guitar solo is near the end. Steve liked this segment & posted it on his soundcloud page. Soundcloud.com/Steveonbass. Steve calls the segment "The Incursion".

Thanks Steve!
