My daughter saved up her own money to buy this sweet guinea pig and setup but unfortunately, we've discovered that she is allergic to her. Like most guinea pigs she is very friendly and enjoys being held. She gets excited when she gets the refrigerator open and even more excited when you bring her a treat from it :)

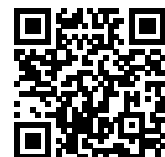

My daughter spent over \$200 on everything and is asking a re-homing fee of \$40. The guinea pig is about 9 months old and will come with a deluxe size cage, food, new upgraded water bottle, a nearly full bag of Timothy hay and scooper. We would like to find a home asap. Please let me know if you have any questions. Thank!
