I have a 7 month old female hound mix (no pitbull) for adoption. I have to give her away due to issues from my landlord. I will provide a full record of her shots as well as vet recommended shots she still could use. She visited the vet last week and is in great health she just needs to finish her shots. She comes with her leash, toys, treats, cage, playpen and everything else i have already bought for her. I'm asking for 100 dollars only to cover the vet costs other than that she is completely free along with her stuff as long as you seem like a fit owner. Contact for
