Odie is a 5 year old, male yellow lab. Hes AKC certified, has his papers, neutered, and current on all shots. He is extremely loving. He gets along with all animals and people. He's house broken, leash trained, and follows commands. My wife decided that our one bedroom apartment was too small for a dog this size, and after analyzing the pros and cons of wife vs. dog, I am very reluctantly giving up my dog. This truly breaks my heart, but I know he would be happier in a new, larger home. Text anytime..
