I have a ford e350 Extended cargo van, 7.3L turbodiesel. The tank delaminated and I need to replace it and the fuel injectors, possibly change the fuel filter and lines as well. I have all the parts necessary but no equipment or place to work on it. Experience with the 7.3's or this problem would be helpful. Please send me a quote of how much you would charge to do this work and the experience you have. Thank.
