

Looking for metal scrapper (Detroit Lakes)

Location **North Dakota**
<https://www.genclassifieds.com/x-444454-z>

Lots of metal scrapping projects to do but I don't have enough time. Looking for someone who knows at least a little about the scrapping business, especially ID-ing and sorting (not only steel). Want a deal where we share a %. You'd get lowest percent for being just a sorter/preparer, highest percent if you're also loading and hauling yourself. Also a plus if you have a cutter, can "prepare" steel, or can dismantle and aren't afraid of heights. Other odd jobs might be available throughout the summer in addition. Within 10 minutes of Detroit Lakes.

If you're interested in this gig, use the CL relay to tell me what you're able to do, what you'd honestly need to learn from me to do it right (would consider a beginner), and propose a % you'd want.

Don't contact me if you want to haul metal for free or are looking for an hourly wage. Not what we're.
