

childcarebabysitting (Edmond, Oklahoma)

Location **Oklahoma**
<https://www.genclassifieds.com/x-444864-z>

My daughter is 14 years old and would like a job babysitting your children. She is very reliable, honest, loves children and they always love to be around her. My oldest daughter and I are both paramedics so you might know my little 14 year old is already CPR certified and has also had numerous workshops in babysitting and childcare. We are able to transport her to your location, if need be. We are always available for her to call on if there are any problems while she is looking after your children. She has watched many young children for family friends and relatives over the past two years with know problems. This summer she wants a job. She wants to make some money over the summer to put in savings for a car.

I can offer names and contact numbers to people that have had her watch their children, if you need them.

My daughter's name is Gabbie and she will be a freshman at Edmond Memorial next year. She has had her three older siblings graduate there before her. We have lived in Edmond over 20 years. We currently reside in Oaktree of Edmond.

If your requiring a babysitter for a few hours, Gabbie would also be able to watch them in our home, if you prefer.

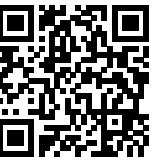

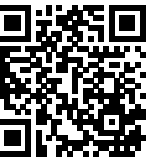

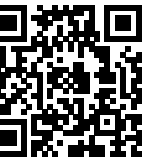

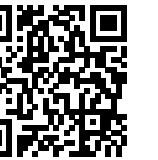

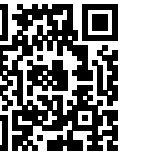

Gabbie is charging 10.00 an hour for one child and 5.00 for any additional children. This would be for occasional babysitting.

If you need someone everyday the price would be different and would depend on what your needs are.

Gabbie loves to be around children and they all seem to love her. She will defenitly keep them busy and intertained. She can cook small meals and is willing to do light house keeping and laundry. She is a good swimmer in case your children have their own pool or you want her to spend the day at the pool with them. Gabbie loves pets and would also be willing to do some pet sitting and/or daily dog walking over the summer. Price negotiable.

Call me, Jera Lynn, mom or Gabbie for any other questions you might have.

****This is her last week of school before summer beak begins.****
