Lost white husky and black lab dogs (NW OKC)

Oklahoma Location https://www.genclassifieds.com/x-444865-z

Our puppies got out this evening around 11:30pm. The pest control people didn't lock the gate properly so when we let the dogs outside this evening they ran off before we realized it. We live in the neighborhood across from Heritage Hall off 122nd st. Please message me if you've seen them. They're my babies!! The husky goes by Sasha and the lab is.
