I have a sweet female spayed cat named Chloe that I need to re home. She is good with kids and dogs but does not get along with other cats. She is an indoor cat but recently she has been wanting to go outside. Can not keep her due to her constantly running out my door in a very high traffic area I am afraid she is going to get hit by a car. Asking for vet reference and a 25 re homing fee to make sure she goes to a good home. She will come with good and a litter box. Please call or text me for more.
