I spotted an orange cat recently downtown Burlington that looked like a stray to me. I spoke to man who lives in the house and he told me the cat has been hanging around his house and under his porches since and he moved in last Fall/Summer. Are you missing an orange cat? Do you know anyone who is? The cat appears to be a male but I am not one hundred percent sure. I do not have a photo b/c I couldn't get a visible picture. Thank!
