  This is my old rig. I need a little extra cash and this is no longer needed. It's in really good condition and includes case, hardware, and power cable. I'm willing to negotiate on the price. I'm not really looking for a trade, but I'll hear any offers. Would be willing to meet half way to Laramie or other nearby towns. Text me if you're interested or have any other questions. You can find the full specs and images below.
