

Looking for a lovely lady kitty who loves being petted, brushed, and belly-rubbed? LOOK NO FURTHER! Cleopatra is a two year old former mama cat who is looking for her forever home. She was rescued from a house with many, many cats that they just could not take care of. Cleopatra had several litters of kittens already. Now that her babies are all grown, Cleo is a plump black cat, looking for someone to baby her! She loves attention from humans, and she will follow you around. She enjoys belly rubs and will roll on the floor begging for them! She also likes her back and butt to be scratched -- so hard she'll army crawl around you for more! This cutie pie is ready for adoption and would love to be your pet. Her adoption fee is only \$40 in the month of May. She is up to date on vaccinations and spayed! She has tested negative for FeLV and FIV and she will be microchipped with a lifetime registration!!
