

## STOP PAYING HIGH SHOP FEES (Tacoma)

Location **Washington**  
<https://www.genclassifieds.com/x-445436-z>

## Motorcycle Mechanic Available

School Trained

I specialize in all Harley Davidson models service, repair and customer satisfaction, but I also work on most motorcycles, scooters, quads, dirt bikes, jet ski's.

I excel in service and upgrades such as:

- 1) Exhaust and fuel management systems for injected motors.
- 2) Twin Cam upgrades/replacements
- 3) Gear drives
- 4) Six speed transmission upgrades
- 5) Some Engine rebuilds...my choice.
- 6) Charging systems.

I also perform normal services such as:

Fluids, gaskets, brakes, tires and any bolt on upgrades like controls, bars and lighting etc...

The above listed services aren't the only things I do, but they are the services I perform the most.

W. 2. Basic Service: Earnings at least 64% higher than in 1980 shops.

1,5 and 15K services \$210

10, 20K services \$230.

25K services \$380. (requires on tank fuel filter replacement)

All service prices include engine, primary and transmission fluid change with Amsoil, Mobile1, Syn3 or whatever you want, but prices may vary if you want anything else.

I won't get into the ongoing debate over what the best lubricant is, but I prefer and use Amsoil in my bike and would be happy to tell you why if you're interested.
