I have a very good condition 3 point hitch carry all for your compact tractor. Frame work was purchased from a local tractor dealer and i made the enclosure out of hemlock. Rugged as hell! Don't carry your expensive tools or saws in the bucket only to have them bounce out ant then you run them over! Put this on your three point hitch in a matter of 1 minute. Haul firewood, sugaring supplies , or whatever you want. Measures 42" long x 32" tall by 24" wide. Call Mark

. If no answer please leave message and i WILL call.
