

Antique Barn Cupola Roof Vent (750 USD)

Location **Vermont**
<https://www.genclassifieds.com/x-445463-z>

A very nice old galvanized cupola roof vent. In good condition, does have some bullet holes and surface rust, but that adds to the patina. It stands approximately 6' tall and the bottom base measures approximately 3' wide. It has GLOBE written on the side and has a brass tag with the patented year in the 1800.
