

Ibanez LF7 Lo

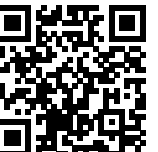

Location **Washington**
<https://www.genclassifieds.com/x-445681-z>

Finally bringing myself to sell my pedal board setup and all guitar pedals. Everything here new was over \$1.5k. Pedals on the board include.

The pedalboard itself and the crossed-off pedals listed below have already sold.

SKB PS-45 (pedalboard and power conditioner) Ibanez Tube King TK999US (awesome tube-driven overdrive pedal) Yamaha AG-Stomp (jack of all trades effects/pre-amp and mic-modeler) \$175 This thing is awesome and not real well known - check out this demo <https://youtu.be/ZtXRdFU-vLk> The feedback auto-notch control is worth it alone, aside from everything else does really well. Yamaha Expression Pedal (for additional AG-Stomp controlling) \$free with AG Stomp Ibanez LF7 Lo-Fi (hi-cut and low-cut pedal) \$80 Line-6 Echo Park (echo and delay pedal) \$75 Whirlwind AB Switchbox a few patch cords \$0 - one free with each pedal 1 long instrument cables \$free with the whole set

Everything works great! Time for me to part with it all. Pick up in Greenwood most days/eves.
