Veteran songwriter with numerous releases by indie artists and labels seeks to barter with singer and musician. I was formerly a manager and am currently an independent publisher and songplugger. Prefer self-contained artists and producers with their own recording studio.

To date, I have written over 200 songs and secured about 25 publishing and licensing deals both here and abroad. Some of these offers were for me, others were for the recording artist, and many were for both of us. However, none of these deals offer payment for advances or demo costs.

Prefer "radio ready" recordings over full demos. If you record my songs, I'll be glad to pitch your work to the industry. It's a win-win for everyone, as most industry contacts inquire about the artist or producer as much as the song. They usually inquire about other material from the artist or producer.

Please attach an audio or video clip of your work. Cheers.
