We are a somewhat newly formed metalcore band that started from an already established project and we are seeking a bassist to complete our line up. We have a practice space at downtown music in salt lake but also have members from UT county. We have a few things in the works including a professionally recorded EP. Some of our influences include bands like August Burns Red, Parkway Drive, The Word Alive, Memphis May Fire, Veil of Maya and many more. We are all pretty laid back but are also very dedicated and want to take this as far as it will go. To try out you must have gear, a source of income, dedication and ability to practice on a regular basis. Also we are all in our early to late 20's and would prefer you were close to our age. If you are interested or have any questions text or call
