Design, coding and development intern wanted for startup

Location **Texas**
https://www.genclassifieds.com/x-445843-z

We are looking for a student, graduate or self taught expert with a wide range of skills including: website development, graphic design, mobile app development, online marketing/seo and more. This job will require a nondisclosure agreement if you are selected. Also this internship will grow into full time employment for the right candidate and as the business grows. Please reply to this post with a detailed letter of interest as to your skills in relation to the above requirements, your resume/portfolio and your availability. You must be in the DFW area and this internship is unpaid but as mentioned has growth potential for the right.
