---

I need someone with a truck to haul off some yard waste. Specifically have a playhouse slide which I was in decent condition, some wood from the playhouses when it was taken apart and tree cuttings stacked and cut into piles. The tree was a smaller type of tree so no giant logs. I will help load if needed but price must be right as I am on a budget. I am in Atlanta near kings and Atlanta and would prefer someone today so I can help.

---

Handyman / General Carpentry,,,,,,,,,,,,,: Pay will be based on quotes provided to me for each section of work.  
contract job

I'm looking for a Handyman / General Carpentry type person that has the knowledge and tools to do small to medium size projects around my place. First thing that needs to be done as soon as possible is go under the house and fix / re-connect the HVAC vents/ducts. Other projects to follow as time & money allows. Need someone with general carpentry & plumbing skills to help with bathroom remodels, room addition, etc.

Please contact via email for further information, please include resume and or references. Pay will be based on quotes provided to me for each section of work.

I need a ditch dug for a concrete footer. The footer will be 20 " deep and 16 " wide X 100 feet long...

There is an existing slab. I plan to rent a concrete saw to score the existing slab so the concrete can be knocked out...

If you are interested in this type of work and are not afraid of the labor give me a shout.

Please let me know what compensation you would consider and what your work experience is. This job does not require an expensive highly skilled construction trade related worker. I am looking to get some labor intensive work accomplished at a cheap price.

I would prefer a "job quote". Payment would be rendered when job is
