My name is Maricel Rudolph and I am opening a daycare, Wild Thingz, mid to end of June. I am looking to care for around 10-12 children between the ages of 1-4 years. I am a mother of a 6 month old baby boy. Raising my son and watching his development and growth is the most rewarding experience. This daycare is an opportunity for me to continue to stay home with my son and at the same time provide that same love and care to other children. You will be able to watch your child through cameras I will install and set up all around the house. This should provide a sense of security and comfort that your child is taken care of. Along with love, care and security is a child's diet. I feed my son breast milk and blend vegetables and fruits as baby food. I will incorporate lots of vegetables and fruits in your child's menu. I also plan on growing a vegetable and fruit garden with the children so they can learn how to and enjoy the fruits of their labor. I will be hiring two employees who have that same love and care for children. If you are interested in my daycare, please feel free to contact me at the email and cellphone provided above. I am open to suggestions and questions and am more than happy to work with specific needs for your child. Pictures will be posted.
