Is the IRS calling you and threatens to take everything you own? Have you not filed tax returns for a few years?

Call me today - I will make sure that your wages are safe, your business stays open and you have a peace of mind.

My name is Natalya Attestatova. I am an attorney and a Certified Public Accountant. I have extensive experience in handling all types of IRS and FTB issues. Prior to starting on my own, I was an IRS Revenue Agent - I know the system from the inside.

Hiring me, an attorney and a CPA, instead of just any tax practitioner, like an Enrolled Agent or a CPA will also provide you with the attorney-client privilege and allow you to talk to me freely, so we can discuss your situation with openness and come up with the best strategy for your case.

Call me today and get a FREE case evaluation -
