We are a group of young 23-28 year olds that joined a huge house in SF SOMA - a great location close to what everyone likes in SF! Similar to a co-op, we have duties and respect one another's living space.

Whether you're from out of town or out of the country, I assume you didn't come to SF to stay quietly at home. The city is awesome for great food, great music, random events like Bay to Breakers that make it uniquely San Francisco.

The housemates are all in tech (not surprisingly), but this isn't a criteria for the house. We are interested in new people from any profession who seeks fun and is interested in truly living in the city. More importantly, we want someone who can get along with everyone in house.

We are a fun, cool group of guys and girls with a variety of interests. Tech is a big one. We promote tech events at the house and you can always find someone to code at all times. Nightlife in the city - going to clubs, bars, and we host awesome parties. Sports, music, food, beer...asically everything SF has to offer.

Our house is pretty big. We have plenty of bedrooms, a large living space and kitchen, a game room, workspace and laundry room.

If you're interested, contact us and we can tell you more about the house. Applicants go through a thorough interview process to ensure we pick the best people and best living situation. So far, this has worked great for us.

Please email us with your contact info if you're.
