Just graduated? Maybe just looking for some side cash? Keep reading..

I'm looking for a graphic designer to work with on a new start-up Fashion company. I need 4 designs created at the moment and I needed them yesterday. I know I can go to a well established Graphics company but why not give someone else a chance?

Compensation will be up to around \$300 - \$400 for all four designs. I need someone familiar with Adobe Illustrator who knows the right formats for vector images and can create AMAZING art from scratch.

Someone who is passionate and can see the vision I need fulfilled.

I would prefer to work WITH someone on these in the Adobe CC and bounce some ideas off each other. These will be car/motorcycle related so if you're into that or pretty much any type of adrenaline pumping hobbies, this could definitely be for you.

The photos I posted are designs I've found and edited/added font very quickly without much thought while I was practicing some skills in the Adobe tools. The designs I need will be similar but better.. and I know every customer you talk to wants their designs "similar but better" and you hear it all the time but these need to be the best. It's all or nothing.

Aside from compensation, if I like what I see, not only will I work with you well into the future, but I will also post your name in my town and if anybody knows me, they'll know I was behind the designs. This could be a great beginning to a great partnership.
You can email me the basic info, I'll send compensation and your portfolio. I'll send some samples of the work you've created and let's talk about this.

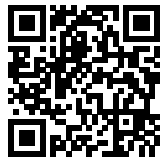

Or if you must, feel free to call or text anytime. It's an out of state number but I'm located in Decatur, off of Lawrenceville highway just inside the perimeter.

My name is Josh and thank you for looking. Pass it on if you know someone who may be interested.

I know there are a lot of freelancers out there who are great but please don't waste my time if you don't know what you're doing. I need people to be so shocked, they practically pass out when they look at these designs. When I make it to the top, you'll be right there with me.

Thanks again,
!
