

25 per night Home Sitting Experienced Dog Walker and Sitter (Kensington, Philadelphia)

Location **Delaware**
<https://www.genclassifieds.com/x-446262-z>

I'm Emily and I'd love to host your dog next time you go out of town! To contact me, enter this link into your browser: <http://bookingdogsitter.com/EmilyL> About Me I am passionate about animals of all kinds and like to spend my free time playing, walking, and taking care of them! I am reliable and will put the needs of your pets first. I have 2 years of pet care experience including walking, feeding, administering medication, and in-home and overnight care. I've worked with dogs, cats, fish, bunnies, chinchillas, and turtles. I've worked with rescued animals and canines, ranging in age from 6 months to 13 years. All species, breeds, ages, and sizes are welcome! My references are available upon request. About My Services My rate is \$25 per night

I prefer to sit the following sizes of dogs:

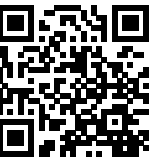

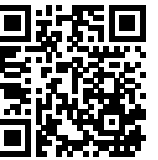

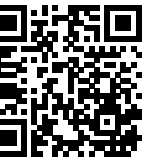

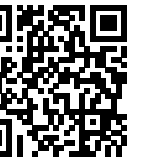

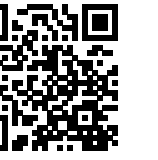

small (1-15 lbs)

medium (15-40 lbs),

large (41-100 lbs),

giant (100+ lbs). Raves from My Customers I have reviews on my Rover profile. Check out what these customers had to say: "Emily was great. She watched our dog for a night when we went to NJ for a friends engagement party and we got a cute little picture of Kade gazing out her window. Thanks Emily! " -- Kellie K. To read more of my customer reviews, visit <http://bookingdogsitter.com/EmilyL>

Want to know more? To view my full profile and contact me, enter this link into your browser: <http://bookingdogsitter.com/EmilyL> I will adhere to the dog's normal eating schedules. I am able to administer medication when necessary. I have walked dogs with high anxiety levels and have learned different strategies to keep anxious dogs calm. Window screens take a real beating from the sun, wind, rain, snow - and unfortunately, sometimes their human users. They tear, they puncture, they just plain wear out. If you're tired of looking at the world through screens riddled with holes or even flapping loosely in the air, I'll replace damaged material with new stuff. Then they'll look good again, and keep the bugs.
