

CONTRACTOR NEEDED

Location **Colorado**
<https://www.genclassifieds.com/x-446408-z>

I have a hallway which has three doors. I want the middle door moved ahead of the two doors on the side. I will be taking out all of three doors and we can use one of them for the new door. I hope I am making sense. I need help building the wall, painting and putting the door inside.

Please if you can help me, I cannot afford more then a 100. If you are interested and have your supplies please feel free to contact me. If you would like to scrap your own dry wall and paint, that will be worth while.

I'm attaching the picture and you can see the middle door that needs to be moved along with the side doors that will stay. This door is for my garage.

Thank
