Must have late model vehicle with professional appearance, GPS, Cell Phone. Professional appearance and attitude a must.

We are currently seeking Roadside Assistance Service Technicians.

What is a Roadside Assistance Service Technician?

We have contracted with major motor clubs, insurance agencies and car dealerships (collectively known as our clients) to provide roadside assistance, in case of a breakdown, to their customers.

When a motorist needs assistance due to the keys being locked in the car (Lock-out), a Dead Battery (Jump start), Runs out of gas (Fuel Delivery) or has a Flat (Tire change), you will be able to provide assistance. You will be doing this work from the home. You are not required to work on a regular basis. You are not required to perform any other work.

Now do you have the freedom to work from home where ever you want to be. Just need you to be able to get to our customers within 30 minutes of us contacting you with the customer location. At first you will only service retail jobs, which pay well. Once proven we will activate motor club jobs in your area. This being the case, you will not have a high volume of jobs at first. This is a deal for someone who is already in the business, or someone who is already working from home and has the freedom to leave at a moments notice and wants to supplement their income.
