

## RB artist looking for.....

Location **Florida**  
<https://www.genclassifieds.com/x-446675-z>

I'm an R&B artist that goes by the name of Soultru. As of now its a mixture of hip-hop added in as well, at least for the time being.

I'm looking for like minds to possibly collaborate, also open minds that would be willing to give me a listen and some feedback which is always welcome. I want to be the best artist I can be and continue to grow on this journey within music. As well I am open to any suggestions as well as help anyone willing to lend a hand anyway they can whether it maybe helping me book shows, joining my street team or networking anyway possible. Honestly even if some of you just want to talk music I'm all ears. Music is my life and I hope to one day have the career to show for as well.

Below I will be posting links o some of my music as well as some of my social media sites so you can check more of what you may like. Thanks and I hope to hear from some of you.
