This is Medusa. She is over a year old. Great snake, she's about 2 ft long, probably a little over. Handled often, but I just don't have the time for a snake anymore. Asking \$200 for the snake, 10 gallon tank, water bowl, and heat pad. I got her as a baby for \$250 without any accessories. Therefore, I consider my asking price to be fair. Please text me because I work full time and will probably be unable to answer the phone during the day.
