THIS BIKE IS PERFECT FUNCTIONING/COSMETIC CONDITION. It is flawless!
 PRE-BUILT / TESTED = AWESOME!!!

Will deliver it to you (and bring it inside/set-up) for only \$100

Taken out of the box in early 2013 and has been in a showroom since. It's perfect and runs flawlessly. It's basically brand new -- has been in a showroom and used minimally for people walking through looking to buy equipment. So, it's not really ever been used. It's a show piece and the best kind of fitness equipment to buy -- because it's kept to look immaculate and perfect function.

THIS BLADE SPIN BIKE IS NOT RE-MANUFACTURED; NOT REFURBISHED; NOT DAMAGED...
 NEVER USED IN A FACILITY...

It's basically brand new - the model hasn't changed much in the last two years (except cosmetically = stickers are in different places; shrouds and curves are a bit differently shaped). Think of it as the difference between the 2013 BMW 535i and the 2015 BMW 535i. The differences in model and body are so minimal, that only the true BMW aficionado would know the difference. BUT, the main point being: both cars operate to the greatest of quality ... and, both are the Ultimate Driving Machine. Same thing rings true with the Spinner Blade. 2012 model vs. 2014 model: what's under the hood is the same!

** Will deliver it to you for only \$100 (if within the L.A. and/or Ventura County areas)
