Gura Gear Kiboko 30L Backpack, Black

I bought it for 475 + tax. Will sell it for 300. Price is firm. No Trade please.

The bag is best if you want to carry long lens or multiple bodies with lens attached.

Used for 4 Trips and is in like new condition. I only used it to move my items in one single bag.

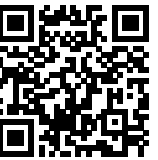

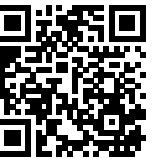

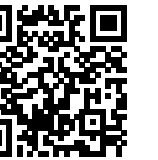

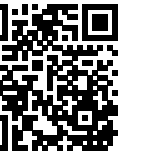

I have sold my other camera bodies and do not require that big a bag anymore.

If you are interested we can decide on a place to view it where you can view/test the same and then take it if you want.

Cash only.

Please reply your name, number/ email and I will promptly reply back. Please check your spam mail if you are expecting a reply from me as craigslist mails most often end up in spam folder.

Some details.
