I have a book that I wrote titled "Light VS Dark: A Book of Poetry" available on Amazon.com. I don't have the money to market the book. It is available in print at \$10.99 which when you buy the print you automatically get the kindle version for free. Or the kindle version alone is only \$2.99. 20% of profits(.89c per print book sold) (after amazon and createspace get their cut which is) goes to St. Jude Children's Hospital.

As Previously stated I don't have the money to market the book right now. But I am putting it out there that if people drive sales for this book I am willing to pay them 20% of my profit as well(it adds up over time).

You must be able to prove sales came through you. Email me for more.
