

# Securing your Pride amp Joy in a Trailer (200 USD)

Location **Kentucky**  
<https://www.genclassifieds.com/x-447255-z>

"When u are going on the road with your pride and joy u want to make sure your ride is secure"!!!!!!!!!!!!!!  
 I just removed from my Harley Trailer these two Motorcycle Wheel Chocks , made with 1/4 in" steel/with 1/4" re-enforcement plates for underneath the trailer, There is also (4) 1/4 steel plates with large tie down! These chocks also have a adjuster front for different size of tires. Complete with all hardware! If u want to make sure your ride is riding with piece of mind u may want to check these out! These were made approx 1994 and were used countless until now. These are not junk but professionally made. I want \$200.00 for both, no disappointments! This even includes about forty dollars in hardware! These held two Harley's Super Glide "Screamin Eagles" with ease with no movement.
