

23 in. Electric Fireplace in cherry wood (200 USD)

Location **Kentucky**
<https://www.genclassifieds.com/x-447272-z>

bought this about 8 years ago..the heater part was never used that much...just the Realistic flame effect...everything in good working order..theres a few scratches not bad though...when bought paid \$650.00 asking \$200.00..

Mantel is made from solid wood and real wood veneers. Realistic flame effect, electric insert includes 1350 watt, 4600 BTU's/hr thermostatic internal heater that can heat 144 sq. ft. No venting, no gas lines. Easy access control panel with dimmer switch, operates with or without heat for 4 season enjoyment. Easy bulb replacement, uses 3 standard 40 watt candelabra light bulbs. Plugs into standard electrical outlet. Cost efficient, 1 cent/hr without heat, 7 to 10 cents/hr with heat. CSA certified for USA & Canada. Easily transportable, glass front always remains cool to the touch.

Electric fireplaces provide a unique ambiance and functionality to any home
