DO NOT USE THIS GUY!

First off the pictures he uses are not of work he has done, they are taken in front of an auto body shop to con you in to thinking it is his work. I can tell you with out a doubt it is not. Below are pictures of his actual work

He showed up at my house in his jag, proceeded to tell me it would cost more because he didn't see a quarter sized spot of rust (which was clearly present in the pic i sent him) then completely fucked the car up.

He uses cans of spray paint, in the open air so you can imagine what that looks like, the color is no where near a match. When I questioned him he first lied and said it would dry the same, when I didn't buy that he changed it to...oh, it's because your paint is faded, then said the manufacturer printed the wrong paint code on the door.

You may not be able to tell from the pics but he painted the pin stripe, painted the tire silver, puttied the body crease out of the back (compare it to the rear door and you'll see). and painted the brake light lens cover. it wasn't sanded smooth so there are scratches visible,

Long story short....it's a night mare that is going to end up costing me twice as much to get it fixed properly as I paid this hack.

His number is in case he changes his ad or edits his
