My daughter, Sophie, has 2 adorable pedigreed Holland Lops (Doe - Annabelle, Buck - Maximus). They are both about a year and 1/2 old & very cute, mellow and lovable. Well, they got busy again & we now have 7 of the cutest little bunnies you can find! They're about 11 weeks old now and ready for new homes. Sophie, her older brothers & friends frequently play, brush, feed and love them up big time! These bunnies are used to being handled by kids and have been since their eyes opened. Please let me know if you'd like to adopt one of our bunnies. We are asking for a \$45 fee, which is what we paid for Annabelle and Maximus. We haven't entered our Holland Lops in 4H competitions but their parents and siblings earned best in show in the past. Only serious inquiries, please. I want to make sure all have GOOD homes soon. If this litter is anything like the last 3, they won't last long. Thanks for looking at Sophie's Holland Lops!

Attached are some pictures of the liter when they were younger. Sophie will be taking updated individual pics soon and we'll update. We can also take pictures and send if you'd like a closer look at a particular bunny. Or, feel free to schedule a time to see them live. They are so sweet and love to play in the grass and in your lap! Other past buyers have shared stories of theirs being liter trained! Sophie walks Annabelle and Maximus on a leash.

All the best!

Sophie and her daddy,
