

Quality paint job at an economy price (boise)

Location **Idaho**
<https://www.genclassifieds.com/x-447816-z>

We are offering to paint your tank, and both fenders for \$400.00. Some say that you get what you pay for, but that is not always the case. Perhaps people have become accustomed to paying the prices that they pay. (Additional parts may be more)

You remove the tank and fenders.
You bring them to me along with \$200.00 to cover our material costs.
We will prepare the parts, paint, clear coat with 3 coats of clear, then cut and buff them to a slick shine.

1 week average turn around time. (heavy pearls, metallic's, candies or body work will require an additional fee).

We can also remove and reinstall the parts for an additional \$150.00.
call or text with any questions or concerns. www.itsnotasticker.webs.com
