

Custom Boat Covers amp Repair (hooksett)

Location **New Hampshire**
<https://www.genclassifieds.com/x-447874-z>

From Bimini covers to Dodgers we can make them. If your cover frame is falling apart, we can make you a new one! We make our frames from stainless hardware and tubing unlike most stock frames that were made of aluminum. Stainless steel frames will last at least four times as long as the aluminum counter parts. Our covers are made from marine grade canvas and we can custom style the cover of your liking. If you want more windows, screening in different places or access zippers where the original cover didn't have one, let us know, we will add them.

We can even repair your existing cover if you aren't quite ready for a new one yet!

*Located in Hooksett, NH ~ THAT MEANS NO SALES TAX!
