I have wheels / rims from a variety of projects time to GO ! \$10 each
 Honda Twinstar CM200t wheel - rear wheel with drum !! 1980, 1981, 1982 should fit 1978 & 1979

1974 1975 1976 Honda CB200T front and rear wheels 3.00-18 - have 4
 Front are disk brakes - rotors not included, Rear are drum - included
 All the pics have descriptions on them except the 360 one

I have 1 Rear tire off a 1975 Honda CB360 size - 3.50 / 85 -18 - should fit 1974 1976 1977
 with tire that has lots of life left, with axle , sprocket looks good,
 rear brake drum included needs cleanup and maybe a tube

1 Front & 1 rear wheels from a Honda 350F - 1972 1973 1974
 front 3.00-18 rear 4-18

These will fit a lot of other years and models - come and get them!!!
 All are very much useable most of the tires have some cracking and about half of them
 hold air - so I am calling them wheels / rims - not tires. Come and get them !!!!
