Are you looking for special opportunities with the next startups? Hoping to make it grow into legitimate business?

I have ideas, business skills, and blue prints of models but I need help, your helps, skills and talent, to make them happen. I'm looking for like-minded risk-takers, creative sorts, to create a startup, a service provider internet company, surprisingly not yet offered on market.

I'd be happy to form a group or meet in person to discuss my projects. If you are a programmer, who knows how to fix kinks, to answer architecture questions, a designer who can provide slick sites, etc, please contact me.

This is a great opportunity for those tired to work for crumbs.

Looking forward to meeting.
