Looking Partners for Startups (New York)
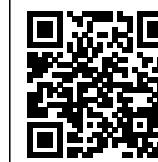

Location   **New York**
https://www.genclassifieds.com/x-448130-z

 I am putting a call out, a shot in the dark

 I am looking for like-minded risk-takers to create the next startup, an internet service provider, surprisingly not yet offered on market.

 I need programmers, designers, etc, to help me execute best ideas. If you are looking for opportunities and are tired to work for crumbs, please do reach out.

 Looking forward to meeting.
