I have two adorable lionhead bucks about five months old I need to rehome. Lucky and Stu are sweet little guys but my daughter has been having breathing issues since we got them. We have a cage, bowls, hay, food pellets, chew blocks, salt chew and grooming brush and nail clippers. They are mellow bunnies and I leave their cage open 24/7 they never venture far, used to cats and kids. They go in their litter box as long as you keep it clean and like to snuggle in blankets with their humans.. \$100 for everything
