Service, Repair, Maintenance, Modifications, De-Modifications, etc.

Our shop is open 10-5 M-F, and we are open most Saturdays from 10 to 2 as well. It's best to call ahead when you plan to stop in.

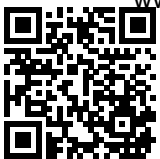

We're extremely fair, prompt, and I'm sensitive to player needs, as I am a player myself. I supervise all technicians and test each amp personally when it's completed.

Other repair shops hate us because we tell it like it is, give you back your old parts, and do the job complete, promptly, and correctly. If you've brought your amp to "those other guys", and still think something is missing, you need to trust your amp to us !!

We provide the highest quality repair work to the professional musician.
