SINGER LOOKING FOR GUITARIST

I am a singer/performer/rhythm guitarist. Looking for a guitarist to do my songs learn yours and collaborate with.

I have a fantastic bass player and drummer. . . just need someone who fits in. The music is 70's and 80's rock with elements of punk, glam and metal.

We've got four songs down minus the lead guitar so we are just starting and there is room for your input.

Our ages range from 20's 30's and ..40's

I am definitely a performer and whatever it is that I do I actually make an impact; real applause and I'm pretty sure they are thinking and talking about the show next day. I've been on a label and have toured. Not necessarily looking for that again but if let's say, a YouTube video goes viral, then... oh well.

Timm

Sex Pistols, early AC/DC, New York Dolls, T. Rex, early Bowie, Hanoi Rocks, Dead Boys, White Stripes... The list goes on. Just because you don't know or like one of these bands doesn't mean you shouldn't.
