Hes good with everything and very friendly. He loves kids. He is a lover boy. He's not your typical heeler. He likes to lay around and snuggle. His adoption fee is \$275 and includes the following.... Fixed, microchip, all shots, bordetella, hw test negative, fecal test negative, grooming, heartguard, advantage, discounted training, food, treats, 10% off anything at pawsitively fintastic. I meet people there as they have a yard and you can bring your pets to play. They are located at 5600 eichelberger st louis mo 63109. Call or text

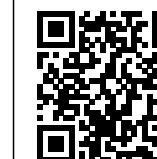

to meet him. He's a very awesome dog. He has no toy or treat drive. He does bark at dogs while in the yard and he walks awesome on a leash but if he sees another dog he go nuts as its something with the leash. If you plan to take him on walks you need to know this as it is embarrassing until the dog passes. He has a pinch collar which has helped with pulling. He does know sit. He was a tornado rescue from Oklahoma. He wants to be with you all the time. Petropolis said they can fix the issue in a week with the leash aggression towards other dogs only not people. Off leash he is great. He goes to dog parks with no problems. He does sometimes have a issue with black dogs as he was attacked by 4 different black dogs so thats what he remembers. I have a black dog and he's fine with him. Its hit or miss. He's a perfect dog other then the issue with the leash. Im not sure he would herd either. He is house trained and crate trained. He eats twice a day as well. He's in a foster home with cats and dogs. He's never met a stranger. You can literally do anything to this dog. I hold him like a baby and rock him. He's only 34lbs and will not get any
