 Homework and Project Help for College and Highschool students  
 Unique method to get results  
 ONE-to-ONE, STEP by STEP. MATH TUTORING, SCHOOL-COLLEGE  
 PhD in Mathematics I provide Unique Logical method to solve any math problems and get great results

Everyday Homework Help available.

I am a teacher with 32 years PhD in Math, of experience teaching college and high school courses (grades 4-12). I teach all levels of math, ranging from elementary school math to PhD and advanced college mathematics. I also help prepare students for exams including SAT, ACT, GMAT, GRE, GED, SHSAT, REGENTS, ISEE, PSAT, SSAT, NJASK, ASVAR and ensure that you get the highest possible score. Contact

Dear parents,

The school year is almost upon us -- are your kids prepared to tackle new subjects, teachers, and tests? Summer is an imperative time to begin getting prepared and building a solid framework for the next school year.

SAT, GMAT, GRE, ACT, GED, ISEE, SHSAT, REGENTS, ALGEBRA, GEOMETRY, TRIGONOMETRY, STATISTICS, ISEE, SSAT

Here are a few ideas to help your children spend their summer efficiently, while still allowing time for fun and relaxation

• Catch up to speed from where they left off last year. Many will forget the material they learned last month, let alone two months ago. This will not only help keep them in the learning mindset, but will also ensure they don't fall behind when school starts by spending time getting into gear. Once your children fall behind, it is very difficult to help them catch up.

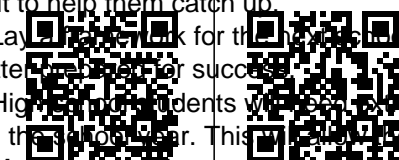

• Lay out a plan for the next school year. Get them ahead of the curve and understanding basic concepts important for the next year. You will have a better grasp of the material.

• High school students will be preparing for the SATs and ACTs. Taking the time to get ready for the upcoming tests will help take the pressure off during the school year. This will allow them more time to focus on their studies and get better results.

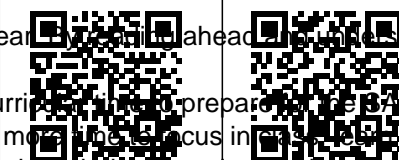

• Most importantly, constantly increasing knowledge, learning, and understanding is an investment into your child's future. They will be better prepared, have a stronger work ethic, and understand the importance of hard work in achieving their goals. They would be more than happy to help your child prepare for the next school year. I can be reached at
