Vintage 1965 Gibson SG JR in original Cherry Red Finish. A super clean example.

YOU WON'T FIND ONE IN BETTER CONDITION ANYWHERE.

Neck feels amazing. The earlier wide nut really feels great and is super comfortable to play. It gives your fingers the necessary space to work with. The neck is fat and plays like butter all the way up and down with low action.

Original pickup screams. It has a terrific bright, thick tone that is still warm and full sounding.

Comes with original case! Guitar is exactly as pictured.
