Hey there. I'm moving to Las Vegas at the end of the month. I want to take my car out there with me but its a 2004 Ford and I really don't trust it to hold up on that kind of a trip. especially the transmission. Anyway I'm looking for someone with a truck (any kind of truck that can haul a Ford Explorer) preferably who is going out that way sometime soon anyway, to get it from Long Island to Vegas. If so call me so we can discuss the details. Thanks in.
