Hello,

I am a freelance Professional Drummer with many years of experience offering remote drum tracks recording service, all styles of music are welcome.

If you need to record drums for your demo, commercial jingle, songs or CD project, I certainly can help you.

Please, describe any general musical preferences you have, or if you have in mind a particular song, sound, groove, influences and/or any other information that can be useful to get the recording performance that you may desire.

I have my own studio recording setup and ready to record, and it makes your recording easy and very affordable. This is a better and less expensive way to get great drum tracks!
I offer this service with RISK FREE! No payments are required until you are totally satisfied and approve the mp3 with the recorded drum tracks. After your approval and payment is received in full (via PayPal), I will send the raw individual drum tracks (no EQ and no effects) in .wav format.

For rates and more info, please contact via email.

Thanks
