Looking for a skilled furniture refinishing and repair person. I own a furniture store in Durham and specialize in showroom samples and closeouts that occasionally have scratches, dings, scuffs, and the like - nothing too bad, only cosmetic problems. Most everything can be solved with lacquer sticks, a little wood filler, paint, and wet sanding.

I get a new truckload of furniture in at least once per month, so I would need you for around half a day each time I get in a truckload.

If you're interested, please email or call me with your hourly rate.

You must have all your own tools and supplies and must come to my showroom to do the.
